*1 ACM access to Auburn University is limited to a number of undergraduate students each year on a competitive basis. Auburn University students must be at the junior or senior level with 60 hours of credit to participate in the ACM. Kentucky Educational Excellence Scholarship (KEES) may be accessed for the freshman and sophomore years.

*2 Students studying at Virginia Polytechnic Institute & State University may enroll in engineering programs with ACM benefit only after general courses in engineering have been completed. Kentucky Educational Excellence Scholarship (KEES) may be accessed prior to admittance into a specified engineering program.

*3 University of Georgia grants ACM access after students have completed at least 60 college credit hours and been formally admitted into an ACM degree program. Kentucky Educational Excellence Scholarship (KEES) may be accessed prior to completion of the 60-hour requirement.

*4 ACM access to University of New Orleans programs will be limited to students formally accepted into their intended department major which may be at the beginning of the student's freshman year or any time thereafter.

*5 Online program available through the ACM/Electronic Campus. Online ACM programs are not eligible for the Kentucky Education Excellence Scholarship (KEES).

*6 Online program available through the ACM/Electronic Campus

*7 The State of North Carolina will not participate in the ACM for the Academic Year 2012-2013. As a result of the General Assembly of North Carolina's Appropriations Act of 2011, North Carolina's participation in the ACM, as both a sender and a receiver of students, will be phased out beginning with academic year 2012-13. Students certified for the ACM who are enrolled and begin study prior to the second summer session in 2012 may continue to pay in-state tuition as long as they remain enrolled in their specified degree program. (The second summer session is considered to be a part of the following academic year, even if it should begin prior to July 1.)

In addition, the State of North Carolina will no longer accept requests for the addition of new degree programs to the ACM inventory, effective November 1, 2011.
