FINANCE COMMITTEE COUNCIL ON POSTSECONDARY EDUCATION

TITLE: Campus Tuition and Fee Proposals for Academic Year 2023-24

RECOMMENDATION: Staff recommends that the Finance Committee approve, on behalf of

the full Council, tuition and mandatory fee proposals for academic year 2023-24 from UK, UofL, KSU, MoSU, NKU and KCTCS.

PRESENTERS: Shaun McKiernan, Executive Director of Finance and Budget, CPE

Ryan Kaffenberger, Senior Associate of Finance and Workforce, CPE

EXECUTIVE SUMMARY

On March 31, 2023, the Council on Postsecondary Education approved tuition and mandatory fee ceilings for academic years 2023-24 and 2024-25. Included among the parameters adopted at that meeting is a requirement that base rate increases for resident undergraduate students not exceed 3.0% in any one year at the public universities, nor exceed \$4.00 per credit hour in any one year at KCTCS institutions.

Eastern Kentucky University, Murray State University, and Western Kentucky University submitted undergraduate and graduate tuition and fee proposals for academic year 2023-24 prior to the June 6, 2023, Finance Committee meeting, and these rates were approved by the Finance Committee on June 6, and the Council on June 9.

The University of Kentucky, University of Louisville, Morehead State University, Northern Kentucky University, and the Kentucky Community and Technical College System all had Board meetings to approve tuition and fee proposals after the June 9 Council meeting. At the June 9 Council meeting, the Finance Committee received delegation of authority to approve tuition and fee proposals from these institutions and Kentucky State University. Just prior to the June 6 Finance Committee meeting, KSU officials discovered a minor error in the agenda item and requested that the approval be delayed so the materials could be corrected.

Staff has reviewed each institution's proposed 2023-24 tuition and fee charges for every degree level, residency, and attendance status and determined that they comply with Council approved ceilings.

Staff recommends that the Finance Committee approve, on behalf of the full Council, tuition and mandatory fee charges for resident undergraduate and graduate students, nonresident undergraduate and graduate students, and on-line learners for academic year 2023-24 as proposed by the institutions and approved by their governing boards.

COUNCIL APPROVED TUITION AND FEE CEILINGS

On March 31, 2023, the Council adopted resident undergraduate tuition and mandatory fee ceilings that equate to:

- a maximum base rate increase of no more than 5.0 percent over two years, and a
 maximum increase of no more than 3.0 percent in any one year, for public research and
 comprehensive universities; and
- a maximum base rate increase of no more than \$7.00 per credit hour over two years, and a maximum increase of no more than \$4.00 per credit hour in any one year, for students attending KCTCS institutions.

At that same meeting, it was determined that the public institutions shall be allowed to submit for Council review and approval:

- Nonresident undergraduate tuition and fee rates that comply with the Council's *Tuition and Mandatory Fees Policy*, or otherwise adhere to provisions of an existing Memorandum of Understanding between the Council and an institution.
- Market competitive tuition and fee rates for graduate and online courses.

During the tuition-setting process, Council staff and campus officials identified and discussed several key issues that were relevant during the development of staff's tuition and fee recommendation, including: (a) the level of state support for campus operations; (b) a pending reduction in the state's pension subsidy; (c) relatively low tuition increases in recent years; (d) the impact of inflationary cost increases; (e) recent trends in college spending; (f) declining college going rates of Kentucky high school graduates; and (g) persistent decreases in student enrollment at nearly every public postsecondary institution.

Staff believes the adopted ceilings achieved an appropriate balance between resource needs of the institutions and affordability for Kentucky students and families.

As a reminder, the resident undergraduate tuition and fee ceilings approved by the Council apply to each institution's base rate charge. Base rates are defined as total tuition and fee charges, minus any Special Use Fees and Asset Preservation Fees previously approved by the Council, and minus an agency bond fee at KCTCS (i.e., BuildSmart Investment for Kentucky Competitiveness Fee). Council staff deduct these fees from total tuition and fees before applying a percent increase parameter, which keeps the fees at a fixed amount each year until they expire. The paragraphs below contain proposed base rates for academic year 2023-24, current-year base rates, and calculated dollar and percent changes between those rates for each institution.

CAMPUS TUITION AND FEE PROPOSALS

Officials from UK, UofL, KSU, MoSU, NKU and KCTCS have submitted to the Council undergraduate and graduate tuition and fee proposals for academic year 2023-24, along with tuition and fee revenue estimates for fiscal years 2022-23 and 2023-24.

Staff has reviewed each institution's proposed 2023-24 tuition and fee charges for every degree level, residency, and attendance status and determined that they comply with Council approved ceilings.

University of Kentucky

On June 22, 2023, University of Kentucky officials submitted a proposal to the Council, containing board-approved tuition and mandatory fee charges for academic year 2023-24. As can be seen in Table 1, between academic years 2022-23 and 2023-24, the university is proposing to increase its annual base-rate charge for resident undergraduate students by \$353.\overline{90}, or 2.7 percent. This increase complies with the Council's approved ceiling for resident undergraduate tuition and mandatory fees, which stipulates that base rates cannot increase by more than 3.0 percent in any one year at public research and comprehensive universities. The university's proposed tuition and fee charges for nonresident, graduate, and on-line students also adhere to Council parameters.

The tuition and fee charges included in UK's proposal were approved by the university's Board of Regents at their June 16, 2023 meeting. Staff recommends that the Finance Committee approve, on behalf of the full Council, tuition and fee rates as proposed by the University of Kentucky.

Attachment A contains additional categories of tuition and fee charges, including proposed percredit-hour rates for part-time resident and nonresident undergraduate students, rates for parttime graduate students, and online rates. Staff recommends approval of these additional rates as proposed by the university.

Estimated Tuition Revenue

UK officials estimate that proposed 2023-24 tuition and mandatory fee charges for all categories of students (i.e., every academic level, residency, and full-time or part-time status) will generate about \$621.0 million in gross tuition and fee revenue, which is \$27.4 million more than anticipated revenue for the current year (see Attachment B). The university's E&G fixed costs are projected to increase by \$49.2 million between fiscal years 2022-23 and 2023-24, which represents an increase of 3.1 percent over current-year costs.

University of Louisville

On June 14, 2023, University of Louisville officials submitted a proposal to the Council, containing board-approved tuition and mandatory fee charges for academic year 2023-24. As can be seen in Table 2, between academic years 2022-23 and 2023-24, the university is proposing to increase its annual base-rate charge for resident undergraduate students by \$308.00, or 2.5 percent. This increase complies with the Council's approved ceiling for resident undergraduate tuition and mandatory fees, which stipulates that base rates cannot increase by more than 3.0 percent in any one year at public research and comprehensive universities. The university's proposed tuition and fee charges for nonresident, graduate, and on-line students also adhere to Council parameters.

The tuition and fee charges included in UofL's proposal were approved by the university's Board of Regents at their June 22, 2023 meeting. Staff recommends that the Finance Committee approve, on behalf of the full Council, tuition and fee rates as proposed by the University of Louisville.

Base rates for UofL do not include a Special Use Fee of \$98.00 per semester, or \$196.00 per year.

Attachment C contains additional categories of tuition and fee charges, including proposed percredit-hour rates for part-time resident and nonresident undergraduate students, rates for parttime graduate students, and online rates. Staff recommends approval of these additional rates as proposed by the university.

Estimated Tuition Revenue

UofL officials estimate that proposed 2023-24 tuition and mandatory fee charges for all categories of students (i.e., every academic level, residency, and full-time or part-time status) will generate about \$339.2 million in gross tuition and fee revenue, which is \$11.8 million more than anticipated revenue for the current year (see Attachment D). The university's E&G fixed costs are projected to increase by \$18.3 million between fiscal years 2022-23 and 2023-24, which represents an increase of 3.3% percent over current-year costs.

Kentucky State University

On June 23, 2023, Kentucky State University submitted a revised proposal to the Council, containing planned tuition and mandatory fee charges for academic year 2023-24. As can be seen in Table 3, between academic years 2022-23 and 2023-24, the university is proposing to increase its annual base-rate charge for resident undergraduate students by \$260.00, or 3.0 percent. This complies with the Council's approved ceiling for resident undergraduate tuition and mandatory fees, which stipulates that base rates cannot increase by more than 3.0 percent in any one year at public research and comprehensive universities. The university's proposed tuition and fee charges for nonresident, graduate, and on-line students also adhere to Council parameters.

The tuition and fee charges included in KSU's proposal were approved by the university's Board of Regents at their April 12, 2023 meeting. Staff recommends that the Finance Committee approve, and endorse to the full Council, tuition and fee rates as proposed by Kentucky State University.

Base rates for KSU do not include Asset Preservation Fees of \$150.00 per semester, or \$300.00 per year for full-time students. pch = per credit hour						

Attachment E contains additional categories of tuition and fee charges, including proposed percredit-hour rates for part-time resident and nonresident undergraduate students, rates for part-time graduate students, and online rates. Staff recommends approval of these additional rates as proposed by the university. Please note that KSU displays mandatory fees separately in Attachment E, however, Council staff includes these fees (e.g., Activities Fee; Technology Fee; Safety and Security Fee, Homecoming Fee) in the base rate, which is displayed in Table 3.

KSU officials estimate that proposed 2023-24 tuition and mandatory fee charges for all categories of students (i.e., every academic level, residency, and full-time or part-time status) will generate about \$17.0 million in gross tuition and fee revenue, which is \$0.5 million more than anticipated revenue for the current year (see Attachment F). Kentucky State University officials are working to cut costs in the coming year to mitigate the financial challenges the university is facing and to move it toward a balanced budget.

Morehead State University

On June 20, 2023, Morehead State University submitted a proposal to the Council, containing planned tuition and mandatory fee charges for academic year 2023-24. As can be seen in Table

4, between academic years 2022-23 and 2023-24, the university is proposing to increase its annual base-rate charge for resident undergraduate students by \$278. $\frac{00}{2}$, or 3.0 percent.

MoSU's proposed base rate increase for resident undergraduate students complies with the Council's approved ceiling for resident undergraduate tuition and mandatory fees, which stipulates that base rates cannot increase by more than 3.0 percent in any one year at public research and comprehensive universities. The university's proposed tuition and fee charges for nonresident, graduate, and on-line students also adhere to Council parameters.

The tuition and fees included in MoSU's proposal were approved by the university's Board of Regents at their June 15, 2023 meeting. Staff recommends that the Finance Committee approve, and endorse to the full Council, tuition and fee rates as proposed by Morehead State University and approved by the university's governing board.

Attachment G contains additional categories of tuition and fee charges, including proposed percredit-hour rates for part-time resident and nonresident undergraduate students, rates for parttime graduate students, and online rates. Staff recommends approval of these additional rates as proposed by the university.

pch = per credit hour

Estimated Tuition Revenue

MoSU officials estimate that proposed 2023-24 tuition and mandatory fee charges for all categories of students (i.e., every academic level, residency, and full-time or part-time status)

will generate about \$53.8 million in gross tuition and fee revenue, which is the same as the anticipated revenue for the current year (see Attachment H). The university's E&G fixed costs are projected to increase by \$2.6 million between fiscal years 2022-23 and 2023-24, or about 2.5 percent over current-year costs.

Northern Kentucky University

On June 20, 2023, Northern Kentucky University submitted a proposal to the Council, containing planned tuition and mandatory fee charges for academic year 2023-24. As can be seen in Table 5, between academic years 2022-23 and 2023-24, the university is proposing to increase its annual base-rate charge for resident undergraduate students by \$304.\frac{90}{20}\), or 3.0 percent. This increase complies with the Council's approved ceiling for resident undergraduate tuition and mandatory fees, which stipulates that base rates cannot increase by more than 3.0 percent in any one year at public research and comprehensive universities. The university's proposed tuition and fee charges for nonresident, graduate, and on-line students also adhere to Council parameters.

The tuition and fees included in NKU's proposal were approved by the university's Board of Regents at their June 14, 2023 meeting. Staff recommends that the Finance Committee approve, on behalf of the full Council, tuition and fee rates as proposed by Northern Kentucky University and approved by the university's governing board.

Attachment I contains additional categories of tuition and fee charges, including proposed percredit-hour rates for part-time resident and nonresident undergraduate students, rates for part-time graduate students, and online rates. Staff recommends approval of these additional rates as proposed by the university.

Estimated Tuition Revenue

NKU officials estimate that proposed 2023-24 tuition and mandatory fee charges for all categories of students (i.e., every academic level, residency, and full-time or part-time status) will generate about \$164.9 million in gross tuition and fee revenue, which is \$8.7 million less than anticipated for the current year (see Attachment J). The university's E&G fixed costs are projected to increase by \$17.7 million between fiscal years 2022-23 and 2023-24, or about 7.7 percent over current-year costs.

Kentucky Community and Technical College System

On June 22, 2023, the Kentucky Community and Technical College System submitted a proposal to the Council, containing planned tuition and mandatory fee charges for academic year 2023-24. As can be seen in Table 6 below, between academic years 2022-23 and 2023-24, the system is proposing to increase its annual base-rate charge for resident students by \$4.00, or 2.2 percent. This complies with the Council's approved ceiling for resident tuition and mandatory fees, which stipulates that base rates cannot increase by more than \$4.00 in any one year at KCTCS institutions. The system's proposed tuition and fee charges for nonresident and on-line students also adhere to Council parameters. The tuition and fees included in KCTCS's proposal were approved by the system's Board of Regents at their June 16 meeting. Staff recommends that the Finance Committee approve, on behalf of the full Council, tuition and fee rates as proposed by the Kentucky Community and Technical College System and approved by the system's governing board.

Base rates for KCTCS do not include an \$8.00 per credit hour BuildSmart Investment for Kentucky Competitiveness Fee.

Attachment K contains additional tuition and fees, including per-credit-hour rates for students from non-resident – contiguous counties, rates for other nonresident students, online rates, and rates for dual-credit students. Attachment K shows billable charges for students enrolled at various levels of credit hours taken (e.g., 3 hours, 6 hours, 9 hours, etc.). Staff recommends approval of these rates as proposed by KCTCS.

Estimated Tuition Revenue

KCTCS officials estimate that proposed 2023-24 tuition and mandatory fee charges for all categories of students (i.e., dual-credit, residency, and full-time or part-time status) will generate about \$240.2 million in gross tuition and fee revenue, which is \$4.7 million more than anticipated revenue for the current year (see Attachment L). The system's E&G fixed costs are projected to increase by \$34.0 million between fiscal years 2022-23 and 2023-24, which represents an increase of about 4.9 percent over current year costs.

STAFF RECOMMENDATION

Council staff has reviewed the tuition and mandatory fee proposals for academic year 2023-24 received from UK, UofL, KSU, MoSU, NKU and KCTCS and have determined that they comply with the resident undergraduate tuition and fee ceilings for research and comprehensive universities and for KCTCS adopted by the Council at the March 31, 2023 meeting. Staff has determined that proposed prices for nonresident undergraduate students adhere to provisions of the Council's 2023-24 Tuition and Mandatory Fee Policy, or a previously approved Memorandum of Understanding between the Council and an institution. Finally, proposed tuition and fee charges for graduate and on-line students adhere to Council parameters.

Staff recommends that the Finance Committee approve, on behalf of the full Council, all applicable tuition and mandatory fee charges for resident undergraduate and graduate students, nonresident undergraduate and graduate students, and on-line learners for academic year 2023-24 as proposed by UK, UofL, KSU, MoSU, NKU and KCTCS.

^{*}Fully online certificates and degree programs (i.e., Internet, web-based) are offered only through UK Online. Undergraduate students enrolled only in an UK Online certificate or degree program are assessed the UK Online rate for all credit hours. There is no full-time tuition cap for UK Online undergraduate certificate and degree programs. The UK Online rate is the same for resident and non-resident undergraduate students.

^{**}Graduate students enrolled exclusively in courses offered through distance learning are assessed tuition using the applicable resident rate, regardless of residency status. Distance learning courses include delivery modes of fully online (i.e., Internet, webbased), hybrid, off-campus, TV, and compressed video.
