# **Tuition and Mandatory Fee Policy**

## **2018-20 Academic Years**

### **Adopted by CPE – February 2, 2018**

---

The Council on Postsecondary Education is vested with authority under KRS 164.020 to determine tuition at public postsecondary education institutions in the Commonwealth of Kentucky. Kentucky's goals of increasing educational attainment, promoting research, assuring academic quality, and engaging in regional stewardship must be balanced with current needs, effective use of resources, and prevailing economic conditions. For the purposes of this policy, mandatory fees are included in the definition of tuition. During periods of relative austerity, the proper alignment of the state's limited financial resources requires increased attention to the goals of the *Kentucky Postsecondary Education Improvement Act of 1997* (HB 1) and the Strategic Agenda for Kentucky Postsecondary and Adult Education.

#### **Fundamental Objectives**

- **Funding Adequacy**

HB 1 states that Kentucky shall have a seamless, integrated system of postsecondary education, strategically planned and adequately funded to enhance economic development and quality of life. In discharging its responsibility to determine tuition, the Council, in collaboration with the institutions, seeks to balance the affordability of postsecondary education for Kentucky's citizens with the institutional funding necessary to accomplish the goals of HB 1 and the Strategic Agenda.

- **Shared Benefits and Responsibility**

Postsecondary education attainment benefits the public at large in the form of a strong economy and an informed citizenry, and it benefits individuals through elevated quality of life, broadened career opportunities, and increased lifetime earnings. The Council and the institutions believe that funding postsecondary education is a shared responsibility of state and federal governments, students and families, and postsecondary education institutions.

- **Affordability and Access**

Since broad educational attainment is essential to a vibrant state economy and to intellectual, cultural, and political vitality, the Commonwealth of Kentucky seeks to

ensure that postsecondary education is broadly accessible to its citizens. The Council and the institutions are committed to ensuring that college is affordable and accessible to all academically qualified Kentuckians with particular emphasis on adult learners, part-time students, minority students, and students from low- and moderate-income backgrounds.

The Council believes that no citizen of the Commonwealth who has the drive and ability to succeed should be denied access to postsecondary education in Kentucky because of inability to pay. Access should be provided through a reasonable combination of savings, family contributions, work, and financial aid, including grants and loans.

In developing a tuition and mandatory fees recommendation, the Council and the institutions shall work collaboratively and pay careful attention to balancing the cost of attendance—including tuition and mandatory fees, room and board, books, and other direct and indirect costs—with students' ability to pay by taking into account (1) students' family and individual income; (2) federal, state, and institutional scholarships and grants; (3) students' and parents' reliance on loans; (4) access to all postsecondary education alternatives; and (5) the need to enroll and graduate more students.

- Effective Use of Resources

Kentucky's postsecondary education system is committed to using the financial resources invested in it as effectively and productively as possible to advance the goals of HB 1 and the Strategic Agenda, including undergraduate and graduate education, engagement and outreach, research, and economic development initiatives. The colleges and universities seek to ensure that every dollar available to them is invested in areas that maximize results and outcomes most beneficial to the Commonwealth and its regions. It is anticipated that enactment of Senate Bill 153, the *Postsecondary Education Performance Funding Bill*, during the 2017 legislative session will provide ongoing incentives for increased efficiency and productivity within Kentucky's public postsecondary system. The Council's Strategic Agenda and funding model metrics will be used to monitor progress toward attainment of both statewide and institutional HB 1 and Strategic Agenda goals.

- Attracting and Importing Talent to Kentucky

It is unlikely that Kentucky can reach its 2030 postsecondary education attainment goal by focusing on Kentucky residents alone. The Council and the institutions are committed to making Kentucky institutions financially attractive to nonresident

students, while recognizing that nonresident undergraduate students should pay a significantly larger proportion of the cost of their education than do resident students. Tuition reciprocity agreements, which provide low-cost access to out-of-state institutions for Kentucky students that live near the borders of other states, also serve to attract students from surrounding states to Kentucky's colleges and universities.

A copy of the Council's nonresident student tuition and mandatory fee policy is contained in the paragraphs below. Going forward, Council staff will periodically review and evaluate the policy to determine its impact on attracting and retaining students that enhance diversity and the state's competitiveness.

## Nonresident Student Tuition and Fees

The Council and the institutions believe that nonresident students should pay a larger share of their educational costs than do resident students. As such, published tuition and fee levels adopted for nonresident students shall be higher than the prices for resident students enrolled in comparable programs of study.

In addition, every institution shall manage its tuition and fee rate structures, price discounting, and scholarship aid for out-of-state students, such that the average net tuition and fee revenue generated per nonresident student equals or exceeds 100% of direct instructional and student services costs per student. As part of the tuition and fee setting process, staff shall monitor and report annually to the Council regarding compliance with this requirement.

Given the substantial costs associated with health-sciences professional programs, and to ensure comparability of policy data and analysis across institutions, direct costs and revenues for dentistry, medicine, and pharmacy students shall be excluded from calculations of policy assessment parameters for the research institutions.

## Special Use Fee Exception Policy

During the 2010-11 tuition setting process, campus officials requested that the Council consider excluding student-endorsed fees from its mandatory fee definition, thus omitting consideration of such fees when assessing institutional compliance with Council approved tuition and fee rate ceilings. Based on feedback received from institutional Chief Budget Officers (CBOs) at their December 2010 meeting, it was determined that there was general interest in treating student-endorsed fees differently from other mandatory fees.

In January and February 2011, Council staff collaborated with institutional presidents, CBOs, and their staffs in developing the following Special Use Fee Exception Policy:

- To the extent that students attending a Kentucky public college or university have deliberated, voted on, and requested that their institution's governing board implement a special use fee for the purposes of constructing and operating and maintaining a new facility, or renovating an existing facility, that supports student activities and services;
- And recognizing that absent any exemption, such student-endorsed fees, when implemented in the same year that the Council adopts tuition and fee rate ceilings, would reduce the amount of additional unrestricted tuition and fee revenue available for an institution to support its E&G operation;
- The Council may elect to award an exemption to its tuition and fee rate ceiling equivalent to all or a portion of the percentage increase resulting from imposition of the student-endorsed fee, provided said fee meets certain eligibility requirements.

## **Definitions**

A student-endorsed fee is a mandatory flat-rate fee that has been broadly discussed, voted on, and requested by students and adopted by an institution's governing board, the revenue from which may be used to pay debt service and operations and maintenance expenses on new facilities, or capital renewal and replacement costs on existing facilities and equipment that support student activities and services, such as student unions, fitness centers, recreation complexes, health clinics, and/or tutoring centers.

Maintenance and Operations (M&O) expenses are costs incurred for the administration, supervision, operation, maintenance, preservation, and protection of a facility. Examples of M&O expenses include janitorial services, utilities, care of grounds, security, environmental safety, routine repair, maintenance, replacement of furniture and equipment, and property and facility planning and management.

## **Eligibility Criteria**

A student-endorsed fee will continue to be a mandatory fee within the context of the Council's current mandatory fee definition and may qualify for an exemption from Council approved tuition and fee rate ceilings. Campus officials and students requesting an exemption under this policy must be able to demonstrate that:

- All enrolled students have been afforded ample opportunity to be informed, voice their opinions, and participate in the decision to endorse a proposed fee. Specifically, it must be shown that fee details have been widely disseminated, broadly discussed, voted on while school is in session, and requested by students.
- For purposes of this policy, voted on means attaining:
  - a) A simple majority vote via campus-wide referendum, with a minimum of one-quarter of currently enrolled students casting ballots;
  - b) A three-quarters vote of elected student government representatives; or
  - c) A simple majority vote via campus-wide referendum, conducted in conjunction and coinciding with the general election of a student government president or student representative to a campus board of regents or board of trustees.
- The proposed fee and intended exemption request have been presented to, and adopted by, the requesting institution's governing board. It is anticipated that elected student government representatives will actively participate in board presentations.
- Revenue from such fees will be used to pay debt service and M&O expenses on new facilities, or capital renewal and replacement costs on existing facilities and equipment that support student activities and services, such as student unions, fitness centers, recreation complexes, health clinics, and/or tutoring centers. The Council expects these uses to be fully explained to students prior to any votes endorsing a fee.
- In any given year, the impact of a student-endorsed fee on the overall increase in tuition and mandatory fees for students and their families will be reasonable. It may be appropriate to phase in the exemption over multiple years to maintain affordability and access.
- Requests for student-endorsed exemptions are infrequent events. The Council does not expect requests for exemptions under this policy to occur with undue frequency from any single institution and reserves the right to deny requests that by their sheer number are deemed excessive.
- A plan is in place for the eventual reduction or elimination of the fee upon debt retirement, and details of that plan have been shared with students. The Council does not expect a fee that qualifies for an exemption under this policy to be

assessed at full rate in perpetuity. Such fees should either terminate upon completion of the debt or, in the case of new facilities, may continue at a reduced rate to defray ongoing M&O costs. In either case, to qualify for an exemption, students should be fully aware of the extent of their obligation prior to any votes endorsing a fee.

## **Exemption Process**

Requests for an exemption under this policy will be evaluated on a case-by-case basis. To initiate the process:

- The requesting institution will notify Council staff of any pending discussions, open forums, referendums, or student government actions pertaining to a proposed special use fee and discuss fee details with Council staff as needed.
- After a fee has been endorsed by student referendum or through student government action and approved by the institution's governing board, campus officials and students will submit a written exemption request to the Council for its consideration.
- Council staff will review the request, assess whether or not the proposed fee qualifies for an exemption, and make a recommendation to the Council.

To facilitate the exemption request process, requesting institutions and students are required to provide the Council with the following information:

- Documents certifying that the specific project and proposed fee details have been widely disseminated, broadly discussed, voted on, and requested by students, as well as adopted by the institution's governing board.
- Documents specifying the fee amount, revenue estimates, uses of revenue, impact on tuition and fees during the year imposed (i.e., percentage points above the ceiling), and number of years the fee will be in place.
- Documents identifying the project's scope, time frame for completion, debt payment schedule, and plan for the eventual reduction or elimination of the fee upon debt retirement.
